Nevilles **FTP** Browser Guide

This allows Distributors access to load images/data on to their website.

Web link: **http://nevillesftp.com/Nevilles/**

The highlighted directories in "Green" are for Customer use as shown on the screenshot below, while the directories highlighted in "Red" are for Nevilles internal use.

NevillesData – ignore (this is for **internal** *Nevilles use only*)

Customer Directories

NevillesFiles – when clicked on this provides access to product data information (including URLs of all of our product listing images and accompanying lifestyle images wherever available against the products) as well as UK and EU stock levels.

These files are updated automatically on a daily basis to ensure that it always has the latest versions and below are some explanations about the contents of the files listed above.

DailyExportLookup_Alternative&Assoc.xlsx – contains all active product codes with columns containing product codes of associated and alternative product codes.

DailyExportLookup_Customers.xlsx – contains useful product data information, including: 100x100, 300x300, 600x6000, lifestyle images with the actual product image URLs, Country of origin, Features & Benefits amongst other details.

Neville_EU_StockLevel.csv – live EU stock information as shown on our website

Neville_UK_StockLevel.csv – live UK stock information as shown on our website
